

4XEM 10M USB 2.0 Flat Extension Cable

4XEM Part- 4X3204A110M

4XEM's USB extension cables are an ideal solution to solve USB device and peripheral connection problems. This cable is designed "flat", this flat cable has a greater surface volume ratio than rounded cables. That additional volume gives these cables greater temperature control and therefore greater current carrying efficiency. The plug in and play quality allows you to use your USB devices in any configuration without an installation process or any convoluted set-up. With 10 meters to use 4XEM's USB 2.0 flat extension cable is an efficient solution for your USB connection problems.

Problem it solves: Efficiently extend your USB devices and peripherals with simple plug and play use, with 4XEM's USB 2.0 Flat extension cable.

Features

- 10M in Length
- USB 2.0 compatible
- USB Male connector & USB Female connector
- DC Power Input Connector – 5V 2A power possible in necessary –Adapter not included
- 28+22AWG OD
- LED light indicator
- Chipset in the Nickel Plug connector
- Active Cable

Application

- Home Office & Desk Management – Extend USB connections while running the cable neatly under rugs, along walls, or behind furniture.
- Conference Rooms – Discreetly route USB camera or microphone cables under tables for a clean, professional look.
- Classroom Technology – Connect interactive boards, document cameras, or printers without tripping hazards.
- Retail & POS Systems – Hide USB lines for scanners, touchscreens, or receipt printers to keep customer areas tidy.
- Media Production – Extend cameras, audio interfaces, or storage devices while keeping cables out of sight on set.
- Gaming & Streaming – Easily connect controllers, webcams, or lighting gear across the room without messy cable runs.
- Event Setups – Safely route USB cables for booths, displays, or live recording equipment without obstructing foot traffic.
